DETAILED ACTION

Response to Amendment

Applicants' amendment filed 5/01/2006 has been entered. All pending claims have been carefully reconsidered in view of the amendment and the arguments for patentability accompanying the amendment.

Allowable Subject Matter

Claims 1-8 are allowed.

The following is an examiner's statement of reasons for allowance:

An optical device having plurality of pillar-shaped members arranged periodically with periodic distribution of refractive index is known in the art. Photonic crystal devices are prime examples of such device. In addition, an optical device wherein such periodically arranged pillar shaped members are disposed on a substrate, such that a force may be applied to the substrate for deforming the pillar-shaped members, is also known in the art.

Matsuura et al (US 6,961,501 B2) and Cotteverte et al (US 2002/0048422 A) are the most relevant and the closest prior art to the claimed invention of the instant application. Relevant figures showing similar structural features of the claimed invention are reproduced below.

Figure 4

Matsuura et al.

Fig. 16

Fig. 17

Cotteverte et al.

Although both of these devices comprise means for applying a force on the substrate supporting the pillar-shaped members, neither of them (and none of the prior art) fairly teaches or suggests arranging “a pair of support member... perpendicularly relative to the direction of arrangement of said pillar-shaped members so as to sandwich the pillar shaped members” as claimed in the instant application.

Further, there is no motivation for one of ordinary skill in the art to modify known structures of prior art devices to have additional support layer such that support layers are disposed on both sides of the pillar-shaped members. This is because adding additional support layer on top of the pillar-shaped members would inhibit desired deformation in the prior art structures.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
